

Brand Identity Guide

Derma Intel.

v2.0

Luminous Precision · 2026

01 The texture is the meaning

The grain-gradient field is the market — hundreds of patients searching, diffuse and unresolved. The dot-matrix numeral and the ruler tick resolve that noise into an instrument-grade reading. Crisp measurement on diffuse light — that contrast *is* the brand.

PRINCIPLE

Diagnose, don't accuse

Gaps are opportunity. A trusted advisor's tone — never a scold's.

PRINCIPLE

Luminous, but organized

Color is light, not paint — held calm by the gray canvas, space, and a strict grid.

PRINCIPLE

Numbers you can trust

Every figure precise, sourced, instrument-rendered. Rigor reads as premium.

02 Voice — the clinical mirror

We speak the customer's own professional language: examination → follow-up → treatment.

OURS	SAY IT AS
The report	The examination. "You'd never treat before an examination. Neither would we."
Monitoring	Follow-up visits. "Re-examine every quarter."
Website build	The treatment.
Score movement	improving · stable · needs attention — never "failing"

Register

Plain, declarative, sentence case. Short confident headlines ("Your patients are searching. Right now."). Specific numbers over adjectives. No fake urgency — real scarcity only (FCFS build slots). Roadmap features are "ships to all subscribers," never implied as current.

Calm • Energetic · Clinical —●— Warm · Confident ●— Boastful · Premium • Flashy

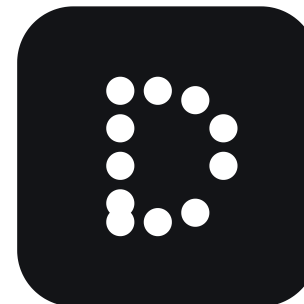

03 Logo

WORDMARK · GEIST 700 · -0.02EM

Derma Intel. Guntur

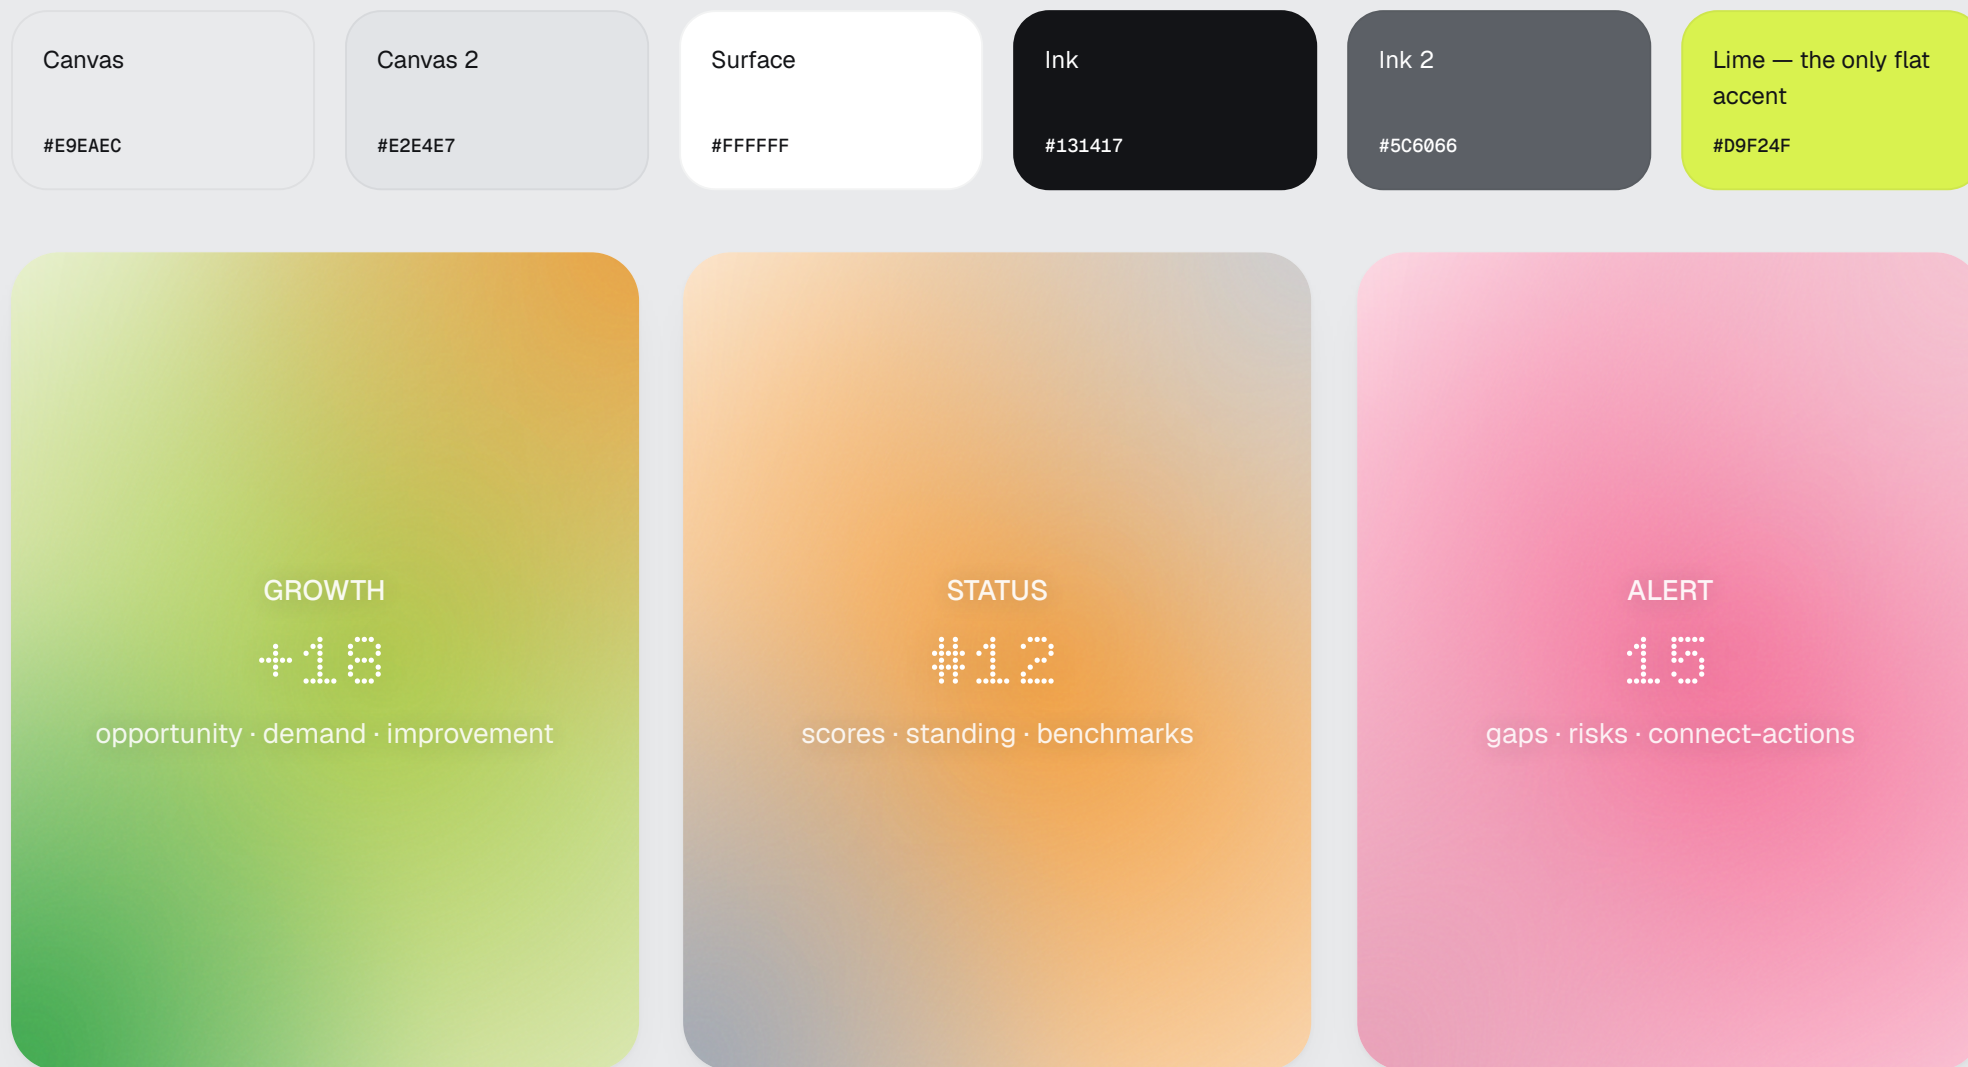

The terminal period is the wordmark's one lime moment. Context suffix in faint ink. Minimum width 96px. Clear space = the D's cap height.

MARK · EACH DOT IS A DATA POINT

Dot-matrix D on the ink tile. Nav + favicon use the mark; page headers the wordmark. Never: gradients, outlines, recolors, multi-color, stretching, dot-matrix wordmark text.

Color — one ground, one ink, one accent, three lights

Category = which triad. Magnitude = field intensity (full / subdued / ghost) — never a hue change; alarm-red does not exist. Proportion: canvas ~70% · surface ~20% · ink ~8% · lime + fields ~2%. ≤3 lime moments per viewport; lime is never a surface.

05 Typography — three faces, three jobs

GEIST · EVERY WORD

**Trusted in person.
Invisible online.**

DOTO · HERO NUMERALS ONLY

0123456789

GEIST MONO · LABELS & DATA

SEARCHES TRACKED · 47 REVIEWS VS 212 MEDIAN

Rules

Headlines: Geist 700, -0.02em , sentence case. Body 11–16px, 1.55 leading, $\leq 65\text{ch}$. Doto always at roundness 100 — numerals only, never words. Micro-labels always mono, uppercase, $+0.08\text{em}$. The huge numeral-to-label size contrast is a brand signature — never flatten it.

BEST VALUE

GHOST = PENDING / GATED

GRAIN CARD · DOT NUMERAL · RULER

Market rank

#12

of 34 dermatology clinics

Grain cards are display surfaces — numerals + short labels only. Rulers attach to real measurements; decorative rulers are banned.

07 Motion & charts

Motion — calm-confident

TOKEN	VALUE	JOB
--dur-quick	240ms	feedback
--dur-base	380ms	reveals, moves
--dur-slow	520ms	count-ups, the gate
--ease-out	cubic-bezier(.22,.9,.24,1)	default

Signatures: numerals count up · ticks draw in sequence · fields breathe (ambient). Never bounce, never linear. Reduced-motion: durations zero; the page reads fully static. Liquid-glass: nav, gate, pills, modal chrome only — never behind data.

Charts — ECharts doctrine

grid	faint hairlines · mono micro axis labels · no boxes
categorical	triad deep stops as series colors + ink for "you" · ≤ 4 hues
magnitude	intensity ramp of ONE hue — never a hue ramp
you vs market	you = ink (or lime marker) · market = faint ink
tooltip	glass pill
numerals	hero = Doto · tables = mono right-aligned · pending = ghost

08 Accessibility & misuse

Computed contrast (WCAG 2.1)

PAIR	RATIO	VERDICT
ink / canvas	15.30:1	body ✓
ink-2 / canvas	5.25:1	secondary ✓
ink / lime	14.70:1	CTA ✓
ink-3 anywhere	2.11:1	decorative only
white / field deep zone	3.45:1	display numerals ≥32px + lift-shadow
white / field light zone	<3:1	banned for text

Focus: 2px ink ring offset 2px. Keyboard-reachable everything. Reduced-motion first-class.

Never do these

Body copy or charts on grain fields · Doto for words · wrong triad for the meaning · hue ramps for magnitude · lime as a surface or >3 moments · pure-white canvas · flat linear gradients posing as fields · liquid-glass behind data · alarm-red · bounce easing · decorative rulers · motion that survives reduced-motion.

The closing rule: we sell precision about someone's market. An imprecise layout contradicts the product before a word is read.
