Diagnose, don't accuse.

The advisor's posture

Every gap is framed as opportunity. We show a clinic where it stands and what to fix — like a trusted advisor, never a scold.

Vibrant, but organized.

Confident colour, held calm

Saturated colour is the feature. The oat canvas, generous space, and a strict grid keep it premium — energy with discipline.

Numbers you can trust.

Rigour reads as premium

Every figure is tabular mono, precise, and sourced. Clarity and honesty are the product — and the reason a clinic pays.

03 · LOGO & MARK

Derma Intel.

Wordmark in **Bricolage Grotesque 800**, sentence case. The terminal period carries the brand accent — purple by default, or any single rainbow hue per context (never multi-coloured at once).

X gradients / bevels **X** stretch or outline **X** recolour the whole word

05 · COLOUR USAGE

CATEGORICAL — EACH HUE IS A THING

The rainbow, fixed order, ≤6 hues per view. Hue distinguishes **categories**: an intent, a clinic type, a presence-type.

■ brand ■ info ■ positive ■ warning ■ critical

SEQUENTIAL — HUE IS MAGNITUDE

The opportunity score only. Amber → clay encodes **low** → **high**. The top stays clay, never alarm-red — diagnostic, not accusatory.
